¹ Includes accepting data, access to reports on web site, submitting data to CMS, and validation study.

² Patient Safety Organization participation is available for practices that are willing to submit the additional data in exchange for receiving more complete reports. Participation includes attendance at quarterly PSO clinical quality meetings.

³ Topics at quarterly meetings include industry trends, advocacy issues, operations best practice discussions, ASA leadership updates.

⁴ Networking dinners held the evening prior to quarterly meetings. Fee of \$75 per attendee, and participation limited to 30.

⁵ Wharton Leadership and Management Training Course. Held annually at Wharton School of Business in Philadelphia. Participants live on campus for five days and experience a course with a unique, customized curriculum taught by some of the worlds most accomplished business faculty while surrounded by some of the country's most successful anesthesia practice managers. This educational and networking experience is unparalleled. Tuition includes books, room and board.

⁶ QCDRapp is provided by Insight Medical Data Services. It is a user friendly, data collection app that runs on Apple and Android mobile devices. It is seamlessly integrated with the ABG reporting web site and users can meet all PQRS/QCDR requirements with no other software or hardware requirements. Affiliate members receive a discount on the monthly fee for QCDRapp which ranges from 2.5% to 10% depending on the level of service that is purchased.
